Runners:
1. Ms Shritee Das
2. Ms Kajal Kumari
3. Mr. Shubham Kumar

Important of Conducting Such Math Quiz

Dr Snehalatha was the torch bearer of this kind of mental innovative exercise for the students. The objective of conducting Mathematics Quiz Competition is to encourage students to look beyond their textual knowledge and establish unique relationship between theory and application of the concepts learnt. Mathematics is a fundamental intellectual tool in Computer Science which helps the students to develop their IQ level and increases the mental ability. And also this gives the opportunity to combine an appreciation of mathematical reasoning with an understanding of computing. It promotes a healthy debate amongst participants to learn from each other.
